

EUKALIN

SPEZIAL-KLEBSTOFFE

The personal solution

No adhesive off the peg

No two adhesives are the same. We develop individual formulations, precisely adjusted to use and application. Together with you we work out suitable solutions. Upon request we simulate your application in our laboratory, developing individual test procedures for your specific requirements. Thus ensuring the highest technical levels in accordance with standards to be observed.

Speaking of standards: We ourselves observe important German DIN standards and certifications, such as German standard DIN ISO 9001-2000, the AEO certificate (customs simplification), and produce our

products according to the GMP (Good Manufacturing Practice) guidelines as well as according to the IVK hygiene guidelines.

EUKALIN special adhesives meet stringent environmental guidelines.

With EUKALIN special adhesives you achieve perfect production results and increase production efficiency. Our adhesives are your personal problem solution.

Partnership-based cooperation ensures quality

Thanks to intensive, long-term and pro-active cooperation with suppliers and partners we are able to act flexibly and quickly at all times and to respond to your demands.

This ensures permanent quality in efficient processes.

We think ahead – our qualified manpower is constantly by your side to advise you personally and guarantee a reliable as well as competent order handling. This applies not only to development and work in the lab, but also to the delivery capacity of individual purchase quantities and support on site.

As you can see – **adhesive is personal.**

EUKALIN

Adhesive can be personal

Can adhesive be personal? Of course it can – we at EUKALIN know that only too well. After all, the development and production of adhesives for your requirements is our specialty.

Your qualified contacts are personal as well – they show initiative, think ahead, and advise you competently. In this way we ensure individual solutions.

Take advantage of these benefits.

In 1904 the family-run company was founded in the German town of Aachen as Gebr. Wachler KG, and in 1988 it was renamed EUKALIN. Today, the third generation sells EUKALIN special adhesives to 117 countries in the world. Our products are successfully used in almost all areas of the paper-processing industry and for the production of flexible packagings.

The name EUKALIN stands for top quality “Made in Germany”. Thanks to modern analyzing and testing methods, we can guarantee consistently high quality of our products.
